SAVE TIME · REDUCE COSTS · TAKE CONTROL

CONNECTIVITY · SD-WAN · SASE

Connectivity: your cloud cornerstone

Keep your business productive with fast, secure and reliable connectivity as its backbone.

Businesses depend on reliable connectivity. Email, files, phone systems and business apps now live in the cloud. When the connection slows or drops, work stops.

Modern solutions to move you forward. Next-generation networking such as SD-WAN and SASE combines performance and security, while consolidating providers reduces overhead and simplifies billing.

01 Maximize your cloud investment

Fiber	Cable	Wireless and 5G	SD-WAN
SASE	Cloud phones (UCaaS)	Contact center (CCaaS)	Telecom expense management

02 Simplify connectivity with one point of contact

Gain expertise without upskilling

Our specialists design end-to-end connectivity tailored to your business and manage everything from assessment through deployment.

Optimize costs by consolidating spend

Simplify vendor management and find savings with unified visibility into usage, performance and billing.

Built-in resilience

Combine connections with automatic failover so a single outage doesn't take your office offline.

Security at the edge

SASE brings secure access and threat protection to every user and location, in the office or remote.

Questions to ask yourself

1. How many internet circuits and providers do you pay for today, and when do the contracts end?
2. What happens to your business when the internet goes down?
3. Do remote and mobile employees get the same security as the office?
4. When did you last compare your speeds and prices to what's available now?

How it works

1

Cost review

Tell us what you use today, what you pay and when contracts renew.

2

Comparison

We bring best-fit options side by side, with pricing.

3

You choose

We place the order and coordinate a smooth transition.

4

Ongoing advocacy

We stay your contact for support, renewals and changes.

Why Support Bay

Since 1988

More than 35 years helping Los Angeles businesses choose, run and protect their technology.

One relationship

A single point of contact for every provider, contract and renewal, so nothing slips.

We can do the work too

Our SupportMax team sets up, manages and supports what you buy, when you want the help.

Get a free connectivity review

We'll compare your current circuits and contracts against leading providers.
