# Take control of your energy costs

Manage your spend with a complete energy strategy, from rates to on-site solutions.

**Energy costs are high and volatile.** Rising electricity demand makes it harder for businesses to plan and control energy spending.

**Find faster, buy better, spend smarter.** With access to competitive pricing, live pricing tools and market forecasting, our energy experts help you lower costs, improve your facilities and meet sustainability goals.

**30.4¢**

per kWh, the average California commercial electricity price in September 2026, up from 30.2¢ a year earlier.
